Lung ventilators and related equipment - Vocabulary and semantics - Part 2: High frequency and jet ventilation

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
3.1 General high-frequency ventilation terminology.....		2
3.2 High-frequency-ventilation equipment terminology.....		3
3.3 High-frequency-ventilation mode terminology.....		4
3.4 Pressure terminology.....		7
3.5 Flow and volume terminology.....		7
3.6 Waveform terminology.....		8
Annex A (informative) Classification of ventilation-modes		9
Annex B (informative) Illustration of high-frequency ventilation terms		10
Bibliography		15
Index		16
