## Lung ventilators and related equipment - Vocabulary and semantics - Part 2: High frequency and jet ventilation

---

### Contents

Page

Foreword..... iv

Introduction..... v

**1 Scope..... 1**

**2 Normative references..... 1**

**3 Terms and definitions..... 1**

    3.1 General high-frequency ventilation terminology..... 2

    3.2 High-frequency-ventilation equipment terminology..... 3

    3.3 High-frequency-ventilation mode terminology..... 4

    3.4 Pressure terminology..... 7

    3.5 Flow and volume terminology..... 7

    3.6 Waveform terminology..... 8

**Annex A (informative) Classification of ventilation-modes..... 9**

**Annex B (informative) Illustration of high-frequency ventilation terms..... 10**

**Bibliography..... 15**

**Index..... 16**
