

# ISO/PAS 24305:2025-07 (E)

Health informatics - Guidelines for implementation of HL7 FHIR based on ISO 13940:2015, ISO 13606-1:2019 and ISO 13606-3:2019

---

<b>Contents</b>		<b>Page</b>
Foreword .....		vi
Introduction .....		vii
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Summary of the ISO 13940:2015 to FHIR R4 map .....	2
4.1	Goals .....	2
4.2	Approach .....	2
4.3	Findings .....	2
4.4	Mapping issues .....	2
5	Mapping of concepts from 13940:2015 to FHIR R4 .....	2
5.1	Mapping of concepts related to healthcare actors .....	2
5.2	Mapping of concepts related to healthcare matters .....	6
5.3	Mapping of concepts related to activities .....	12
5.4	Mapping of concepts related to process .....	22
5.5	Mapping of concepts related to healthcare planning .....	25
5.6	Mapping of concepts related to time .....	29
5.7	Mapping of concepts related to responsibilities .....	35
5.8	Mapping of concepts related to information management .....	39
6	Summary of the FHIR R4 to ISO 13940:2015 map .....	46
6.1	Goals .....	46
6.2	Approach .....	46
6.3	Findings .....	46
6.4	Mapping issues .....	46
7	Mapping of concepts from FHIR R4 to ISO 13940:2015 .....	47
7.1	Mapping of concepts related to foundation conformance .....	47
7.2	Mapping of concepts related to foundation terminology .....	49
7.3	Mapping of concepts related to foundation security .....	51
7.4	Mapping of concepts related to foundation documents .....	53
7.5	Mapping of concepts related to base individuals .....	55
7.6	Mapping of concepts related to base entities#1 .....	58
7.7	Mapping of concepts related to base entities#2 .....	61
7.8	Mapping of concepts related to base workflow .....	63
7.9	Mapping of concepts base management .....	65
7.10	Mapping of concepts related to clinical summary .....	67
7.11	Mapping of concepts related to clinical diagnostics .....	70
7.12	Mapping of concepts related to clinical - medications .....	73
7.13	Mapping of concepts clinical care provisions .....	76
7.14	Mapping of concepts related to clinical request and response .....	80
7.15	Mapping of concepts related to financial support .....	83
7.16	Mapping of concepts related to financial billing .....	85
7.17	Mapping of concepts related to financial payment .....	87
7.18	Mapping of concepts related to financial general .....	89

7.19	Mapping of concepts related to specialized public health and research .....	91
7.20	Mapping of concepts related to specialized definitional artifacts .....	93
7.21	Mapping of concepts related to specialized evidence-based medicine .....	97
7.22	Mapping of concepts related to specialized quality reporting and testing .....	99
7.23	Mapping of concepts related to specialized medication definition .....	101
8	Summary of the ISO 13606-1:2019 from/to FHIR R4 map .....	107
8.1	Goals .....	107
8.2	Approach .....	107
8.3	Findings .....	107
8.4	Mapping issues .....	107
9	Mapping of concepts from ISO 13606-1:2019 to FHIR .....	108
9.1	Mapping of concepts related to EHR Component EHR Extract .....	108
9.2	Mapping of concepts related to EHR Component Folder .....	110
9.3	Mapping of concepts related to EHR Component Composition .....	112
9.4	Mapping of concepts related to EHR Component Entry .....	114
9.5	Mapping of concepts related to EHR Component Item .....	116
9.6	Mapping of concepts related to EHR component Common properties of record components .....	118
9.7	Mapping of concepts related to EHR component Base component .....	118
9.8	Mapping of concepts related to EHR component Record component .....	120
9.9	Mapping of concepts related to EHR component Attestation .....	122
9.10	Mapping of concepts related to EHR component Link .....	124
9.11	Mapping of concepts related to EHR component External link .....	126
9.12	General principles for mapping elements and data values .....	128
9.13	Mapping of concepts related to Elements and data values Instance identifier .....	133
9.14	Mapping of concepts related to Elements and data values URI .....	135
9.15	Mapping of concepts related to Elements and data values uid .....	137
9.16	Mapping of concepts related to Elements and data values Attachment .....	139
9.17	Mapping of concepts related to Elements and data values SampleData .....	142
9.18	Mapping of concepts related to Elements and data values Point in time .....	144
9.19	Mapping of concepts related to Elements and data values Date time .....	146
9.20	Mapping of concepts related to Elements and data values Date .....	148
9.21	Mapping of concepts related to Elements and data values Time .....	150
9.22	Mapping of concepts related to Elements and data values Period .....	152
9.23	Mapping of concepts related to Elements and data values Timing .....	154
9.24	Mapping of concepts related to Elements and data values Physical Quantity .....	156
9.25	Mapping of concepts related to Elements and data values Coded value .....	159
9.26	Mapping of concepts related to Elements and data values Coded simple .....	161
9.27	Mapping of concepts related to Elements and data values Simple text .....	163
9.28	Mapping of concepts related to Elements and data values String .....	165
9.29	Mapping of concepts related to Elements and data values Annotation .....	167
9.30	Mapping of concepts related to Elements and data values Integer .....	169
9.31	Mapping of concepts related to Elements and data values Real .....	171
9.32	Mapping of concepts related to Elements and data values Boolean .....	173
9.33	Mapping of concepts related to Demographics PersonName .....	175
9.34	Mapping of concepts related to Demographics TelecommunicationAddress .....	177
9.35	Mapping of concepts related to Demographics LocationAddress .....	179
9.36	Mapping of concepts related to Demographics Attestation info .....	182
9.37	Mapping of concepts related to value sets .....	184
9.38	Mapping of concepts value set Link .....	186
9.39	Mapping of concepts value set Version_status .....	188
9.40	Mapping of concepts related to value Set Null_flavour .....	189
10	Challenges, constraints, and recommendations for a standardization roadmap to align the HL7 FHIR and ISO 13606-3:2019 standards .....	190
10.1	Purpose of this Clause .....	190
10.2	Importance of HL7 FHIR and ISO 13606-3:2019 alignment .....	191
10.3	Overview of the HL7 FHIR functional/reporting model .....	191
10.3.1	StructureDefinition and resource profiling .....	191

10.3.2	Meta information .....	191
10.3.3	Extension mechanism .....	191
10.3.4	Slicing mechanism .....	192
10.3.5	Changing knowledge and adaptability .....	192
10.3.6	Base reference models specialization .....	192
10.4	Overview of ISO 13606-3:2019 .....	192
10.5	Differences and similarities between the standards in terms of information structure composition mechanisms .....	193
10.5.1	Main concepts .....	193
10.5.2	Similarities .....	193
10.5.3	Differences .....	193
10.6	Benefits found from the combined use of FHIR and ISO 13606-3 .....	193
10.6.1	Enhanced semantic interoperability .....	193
10.6.2	Flexibility in data modeling .....	194
10.6.3	Reusability and standardization .....	194
10.6.4	Efficient data exchange .....	194
10.6.5	Enhanced clinical validity .....	194
10.6.6	Improved data governance and quality .....	194
10.7	Example of a combination of the ISO 13606-3:2019 "Health Condition" reference archetype with FHIR .....	194
10.7.1	General .....	194
10.7.2	Detailed example of combined specification .....	195
10.7.3	Hypothetical FHIR Profile: Health Condition .....	196
11	Mapping tables guiding the representation of reference archetypes as FHIR resources ..	198
11.1	Mapping of properties related to reference archetypes for demographic entities .....	198
11.2	Mapping of properties related to reference archetypes for clinical information specifications .....	200
Annex A (informative) Mapping between HL7 FHIR, the ISO 13606 series and ISO 13972 .....		217
Bibliography .....		225
