

# ISO 18706:2025-10 (E)

## Healthcare organization management - Pandemic response (respiratory) - Functions and quality evaluation of specimen collection booth

---

### Contents

Page

- Foreword.....iv
- Introduction .....v
- 1 Scope.....1
- 2 Normative references.....1
- 3 Terms and definitions.....1
- 4 Negative pressure booth.....3
  - 4.1 Principle.....3
  - 4.2 Structure.....3
    - 4.2.1 General.....3
    - 4.2.2 Main body.....3
    - 4.2.3 Filtration.....4
    - 4.2.4 Glove and work shelf.....4
    - 4.2.5 Control unit.....5
    - 4.2.6 Option for outdoor usage.....5
  - 4.3 Function.....5
    - 4.3.1 General.....5
    - 4.3.2 HEPA filter leak.....5
    - 4.3.3 Noise level.....5
    - 4.3.4 Light intensity.....6
    - 4.3.5 Differential pressure.....6
    - 4.3.6 Air velocity.....6
- 5 Positive pressure booth.....6
  - 5.1 Principle.....6
  - 5.2 Structure.....7
    - 5.2.1 General.....7
    - 5.2.2 Main body.....7
    - 5.2.3 Filtration.....7
    - 5.2.4 Glove and work shelf.....8
    - 5.2.5 Control unit.....8
    - 5.2.6 Option for outdoor usage.....8
  - 5.3 Function.....9
    - 5.3.1 General.....9
    - 5.3.2 HEPA filter leak.....9
    - 5.3.3 Noise level.....9
    - 5.3.4 Lighting intensity.....9
    - 5.3.5 Differential pressure.....9
    - 5.3.6 Air velocity.....9
- Annex A (normative) Performance evaluation.....10
- Annex B (informative) Size information considering ergonomic factors.....16
- Bibliography.....18
