Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms,definitionsandabbreviations 1
3.1 Terms and definitions 1
3.2 Abbreviations 2

4 MID-NET® system overview 2
4.1 General 2
4.2 EMR 3
4.3 Medical information storage at medical sites 4
4.4 Integrating medical information (central data centre) 4
4.5 Onsite centre 4

5 Stakeholders 4
5.1 Project owners 4
5.2 Medical sites 4
5.3 EMR and LIS vendors 4
5.4 Development and maintenance of standard codes 4
5.5 Organization governance to ensure data quality 5
5.6 MID-NET® stakeholders 5

6 Quality management overview 5
6.1 General 5
6.2 Standardization 6
6.3 Data mapping 7
6.4 Data validation 7
6.5 Governance 8
6.5.1 General 8
6.5.2 Real-time validation tool (RTVT) 8
6.5.3 Tool to check the syntax of HL7 V2.5 messages in the files contained in the folders of the storage hierarchical structure (MSVT) 8
6.5.4 Governance centre operations 8

7 Conclusion 9

Annex A (informative)Standardcodemappingtable 10

Annex B (informative) Data consistency in data categories 11

Annex C (informative) Tools for data consistency 12
