Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Requirements 3
4.1 Freedom from leakage 3
4.2 Initiating force 3
4.3 Sustaining force 3
4.4 Dimensions 3
4.5 Eccentricity 4
4.6 Visibility of the medicinal product 4
4.7 Meniscus 5
4.8 Resealability 5
4.9 Cap 5
4.10 Plunger and disc 5
4.11 Material of the cylinder 5
4.12 Lubrication 5
4.13 Dose accuracy 5
4.14 Deliverable volume and last-dose accuracy 5

5 Test methods 6
5.1 Test apparatus 6
5.2 Test conditions 6
5.3 Test fluid 7
5.4 Analytical approach 7
5.5 Leakage (attribute) 7
5.6 Forces required to initiate and sustain plunger movement (attribute) 8
5.7 Dimensions (attribute) 8
5.8 Eccentricity (attribute) 8
5.9 Meniscus (attribute) 11
5.10 Resealability (attribute) 11
5.11 Dose accuracy (variable) 11
5.12 Deliverable volume (attribute) 12
5.13 Last-dose accuracy (variable) 12

6 Information supplied by the manufacturer 13
