

DIN ISO 20397-1:2026-10 (E)

Biotechnology - Massively parallel sequencing - Part 1: Nucleic acid and library preparation (ISO 20397-1:2022)

Contents

Page

Foreword.....	v
Introduction.....	vi
1 Scope.....	1
2 Normative references.....	1
3 Terms and definitions.....	1
4 Nucleic acid sample quality evaluation.....	2
4.1 General.....	2
4.2 Sample quantification.....	3
4.3 Sample purity.....	3
4.4 Sample integrity.....	3
4.4.1 General.....	3
4.4.2 Agarose gel electrophoresis.....	3
4.4.3 Capillary gel electrophoresis.....	3
4.4.4 Microfluidic analysis system.....	3
4.4.5 PCR method.....	3
5 Nucleic acid library preparation.....	4
5.1 General.....	4
5.2 Fragmentation.....	4
5.2.1 General.....	4
5.2.2 Mechanical fragmentation.....	4
5.2.3 Enzymatic fragmentation.....	4
5.2.4 Chemical fragmentation.....	5
5.2.5 Fragmented nucleic acid sample quantity.....	5
5.2.6 Fragmented nucleic acid sample purity.....	5
5.2.7 Fragmented nucleic acid size distribution.....	5
5.2.8 Fragmented nucleic acid purification using gel electrophoresis.....	5
5.3 Addition of universal sequences.....	5
5.3.1 Repair.....	5
5.3.2 Ligation of adapter.....	5
5.3.3 Barcoding/indexing.....	6
5.4 Size selection.....	6
5.5 Amplification.....	6
5.6 Purification and clean up procedures.....	6
5.7 Library quantification.....	7
5.7.1 Library quantification method.....	7
5.7.2 Selection of quantification method.....	7
5.8 Library qualification.....	7
5.8.1 General.....	7
5.8.2 Methods.....	7
6 Validation.....	7
7 Reference materials or controls.....	8
7.1 General.....	8
7.2 Control samples.....	8
7.3 Positive control.....	8
7.4 Negative control.....	9

7.5	No-template control.....	9
7.6	Spike-in control.....	9
7.7	Reference materials	9
8	Contaminations	9
8.1	General.....	9
8.2	Primary sample evaluation.....	9
8.3	Protocol and operation procedure.....	10
Annex A (informative) Checklist for sample quality assessment before library construction		11
Annex B (informative) Examples of quality criteria for selected MPS platforms and applications		12
Annex C (informative) Reference material list.....		14
Bibliography		15
