Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 General requirements 3

5 Selection of filters and filter assemblies based on filter manufacturer's data 3

6 Fluid-specific selection criteria based on filter user's data 3

7 Filtration process 4
7.1 Process parameters 4
7.2 Validation of fluid-specific microbial retention by filters 5

8 Filtration system design 7

9 Routine process 8

10 Process documentation 8

11 Maintenance and change control 9

12 Operator training 9

Annex A (informative) Basic information and quality certificates for filter cartridges 10

Bibliography 11
