

ISO 19054 :2005-07 (E)

Rail systems for supporting medical equipment

| Contents | | Page |
|---------------------------------------------------------------------------------------------------|--|------|
| Foreword..... | | iv |
| Introduction | | v |
| 1 Scope | | 1 |
| 2 Normative references | | 1 |
| 3 Terms and definitions..... | | 1 |
| 4 General Requirements..... | | 4 |
| 4.1 Safety | | 4 |
| 4.2 * Alternative construction | | 4 |
| 4.3 Materials | | 4 |
| 4.4 Electrical requirements | | 4 |
| 5 Rail system requirements | | 4 |
| 5.1 Rail supports | | 4 |
| 5.2 Rail..... | | 4 |
| 5.3 Joining of rails | | 9 |
| 5.4 Rail clamp | | 9 |
| 5.5 Equipment mount holder | | 11 |
| 5.6 Equipment mount | | 12 |
| 5.7 Equipment mount pin holder..... | | 13 |
| 5.8 Equipment mount pin | | 14 |
| 5.9 * Mechanical characteristics of the rail after installation | | 14 |
| 6 Marking, labelling and packaging | | 15 |
| 7 Testing, commissioning and certification..... | | 16 |
| 7.1 Tests after installation..... | | 16 |
| 7.2 Certification of the installed rail system..... | | 16 |
| 8 Information to be supplied by the manufacturer..... | | 16 |
| 8.1 Upon delivery of rail and supports | | 16 |
| 8.2 Upon delivery of other components of the rail system | | 17 |
| Annex A (informative) Example of a form for certification of the rail system..... | | 18 |
| Annex B (informative) Rationale | | 19 |
| Annex C (informative) Special national and regional conditions for electrical installations | | 20 |
| Bibliography | | 21 |
