Foreword 2

Introduction 4

1 Scope 6

2 Normative references 7

3 Terms and definitions 7

4 Quality management system elements 13
4.1 Documentation 13
4.2 Management responsibility 14
4.3 Product realization 14
4.4 Measurement, analysis and improvement -- Control of nonconforming product 14

5 Sterilizing agent characterization 14
5.1 Sterilizing agent 14
5.2 Microbicidal effectiveness 14
5.3 Material effects 14
5.4 Environmental considerations 15

6 Process and equipment characterization 15
6.1 Process 15
6.2 Equipment 15

7 Product definition 16

8 Process definition 17
8.1 Establishing the maximum acceptable dose 17
8.2 Establishing the sterilization dose 17
8.3 Specifying the maximum acceptable dose and the sterilization dose 18
8.4 Transference of maximum acceptable, verification or sterilization dose between radiation sources 18

9 Validation 19
9.1 Installation qualification 19
9.2 Operational qualification 19
9.3 Performance qualification 20
9.4 Review and approval of validation 20

10 Routine monitoring and control 21

11 Product release from sterilization 22

12 Maintaining process effectiveness 22
12.1 Demonstration of continued effectiveness 22
12.2 Recalibration 25
12.3 Maintenance of equipment 25

12.4 Requalification of equipment 25
12.5 Assessment of change 25

Annex A (informative) Guidance 26

Bibliography 41

ANNEX ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directives 90/385/EEC concerning active implantable medical devices, 93/42/EEC concerning medical devices and 98/79/EEC concerning in vitro diagnostic medical devices 43
