# ISO 10651-5:2006-02 (E)

## Lung ventilators for medical use - Particular requirements for basic safety and essential performance - Part 5: Gas-powered emergency resuscitators

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 * Scope ..... 1

2 Normative references ..... 1

3 Terms and definitions ..... 2

4 General requirements ..... 4
4.1 General ..... 4
4.2 Other test methods ..... 5
4.3 Acceptance criteria ..... 5

5 Constructional requirements ..... 6
5.1 General ..... 6
5.2 Connectors ..... 7

6 Operational requirements ..... 9
6.1 General ..... 9
6.2 Resistance to environmental influences ..... 10
6.3 Resistance to typical use ..... 10
6.4 Size and mass ..... 11
6.5 Gas supply ..... 11

7 Performance ..... 12
7.1 Ventilatory requirements ..... 12
7.2 * Ventilation performance ..... 14

8 Identification, marking and documents ..... 17
8.1 General ..... 17
8.2 Marking ..... 18
8.3 Information provided by the manufacturer for operation and maintenance ..... 19

Annex A (informative) Rationale ..... 23

Annex B (normative) Test methods ..... 28

resuscitation guidelines ..... 40

Annex E (informative) Terminology -- Index of defined terms ..... 43

Bibliography ..... 45
