Foreword 2

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 General Requirements 8
4.1 Safety 8
4.2 * Alternative construction 8
4.3 Materials 8
4.4 Electrical requirements 8

5 Rail system requirements 8
5.1 Rail supports 8
5.2 Rail 8
5.3 Joining of rails 13
5.4 Rail clamp 13
5.5 Equipment mount holder 15
5.6 Equipment mount 16
5.7 Equipment mount pin holder 17
5.8 Equipment mount pin 18
5.9 * Mechanical characteristics of the rail after installation 18

6 Marking, labelling and packaging 19

7 Testing, commissioning and certification 20
7.1 Tests after installation 20
7.2 Certification of the installed rail system 20

8 Information to be supplied by the manufacturer 20
8.1 Upon delivery of rail and supports 20
8.2 Upon delivery of other components of the rail system 21

Annex A (informative) Example of a form for certification of the rail system 22

Annex B (informative) Rationale 23

Annex C (informative) Special national and regional conditions for electrical installations 24

Bibliography 25

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 93/42/EEC Medical devices 26
