Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 General requirements 2

5 Indicator system format 2

6 Performance requirements 2

7 Packaging and labelling 3

8 Quality assurance 4

Annex A (normative) Determination of strength after steam sterilization 5

Annex B (normative) Estimation of visual difference between colour of the substrate and the changed (or unchanged) indicator system by determination of relative reflectance density 6

Annex C (normative) Determination of indicator colour change on exposure to dry saturated steam 10

Annex D (normative) Determination of indicator colour change on exposure to dry heat 11

Annex E (normative) Accelerated ageing of test samples 12

Annex F (normative) Determination of transfer of indicator to standard test pack on processing 13

Annex G (normative) Determination of shelf life of the product 14

Annex H (normative) Steam exposure apparatus 15

Annex I (normative) Determination of sensitivity of the indicator to the presence of air 17

Annex J (normative) Air injection system 18

Annex K (normative) Standard test pack 20
