Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 General requirements 3

5 Indicator system format 4

6 Performance requirements 4

7 Packaging and labelling 6

8 Quality assurance 7

Annex A (normative) Determination of indicator strength during and after steam sterilization 8

Annex B (normative) Standard test cycles 10

Annex C (normative) Estimation of visual difference between colour of the substrate and of the changed or unchanged indicator system by determination of relative reflectance density 15

Annex D (normative) Determination of uniform colour change on exposure to saturated steam 19

Annex E (normative) Determination of equivalence of the alternative indicator to the Bowie and Dick test 20

Annex F (normative) Determination of reproducibility of fail conditions created in a standard test pack by air injection, air leak and retained air systems 22

Annex G (normative) Determination of indicator colour change on exposure to dry heat 26

Annex H (normative) Determination of shelf life of product 27

Annex I (normative) Accelerated ageing of test samples 28

Annex J (normative) Steam exposure apparatus and steam for test purposes 29

Annex K (normative) Standard test pack 32

Annex L (normative) Air injection system 33
