

ISO 14005:2010-12 (E)

Environmental management systems - Guidelines for the phased implementation of an environmental management system, including the use of environmental performance evaluation

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Terms and definitions	1
3	Phased implementation process	5
3.1	General	5
3.2	Importance of support, commitment and involvement from management and staff	5
3.3	Structure of this International Standard	6
3.4	Scope of the EMS	6
3.5	The phased implementation process of an EMS	7
4	Undertaking an environment-related project to secure management support and commitment to begin the phased implementation of an EMS	7
4.1	Purpose	7
4.2	Methodology	8
5	Elements that support the implementation and maintenance of an EMS	11
5.1	Environmental communications	11
5.2	Resources, roles, responsibility and authority	14
5.3	Competence, training and awareness	15
5.4	Records	16
5.5	Documentation	16
5.6	Document control	17
6	Development and implementation of an EMS	18
6.1	Identification of the organization's significant environmental aspects	18
6.2	Identification of the organization's legal and other requirements	20
6.3	Evaluation of compliance with the organization's legal and other requirements	21
6.4	Preparation and implementation of an environmental policy	22
6.5	Setting objectives and targets and establishing programme(s)	24
6.6	Operational control	25
6.7	Planning for and responding to emergencies	27
6.8	Environmental performance evaluation, including monitoring and measurement	28
6.9	Internal audits	30
6.10	Managing when things do not go as planned	32
6.11	Management review of progress and performance	33
	Annex A (informative) Overview of activities	35
	Annex B (informative) Example of implementation in five phases	55
	Annex C (informative) Example of phased implementation in three phases	57
	Annex D (informative) Example of a working EMS project	59
	Annex E (informative) Cross-reference table	67
	Bibliography	69
