

DIN EN 16231:2012-11 (E)

Energy efficiency benchmarking methodology

Contents		Page
Foreword		3
Introduction		4
1	Scope	6
2	Normative references	6
3	Terms and definitions	6
4	Energy efficiency benchmarking methodology	9
4.1	Minimum requirements for energy efficiency benchmarking	9
4.2	Benchmarking steps	9
4.2.1	Purpose and planning	9
4.2.2	Data collection and verification	10
4.2.3	Analysis and results	11
4.2.4	Reporting	11
	Annex A (informative) Example of a checklist for an energy efficiency benchmarking	12
	Annex B (informative) Two examples of energy efficiency benchmarking data collection questionnaires	14
	Annex C (informative) Checklist correction factors	18
	Annex D (informative) Plausibility check of input data	19
	Annex E (informative) Two examples of presentation of benchmarking output	20
	Annex F (informative) Benchmarking as a management tool	22
	Bibliography	23
