

DIN EN 16231:2012-11 (E)

Energy efficiency benchmarking methodology

Contents		Page
Foreword		3
Introduction		4
1 Scope		6
2 Normative references		6
3 Terms and definitions		6
4 Energy efficiency benchmarking methodology		9
4.1 Minimum requirements for energy efficiency benchmarking		9
4.2 Benchmarking steps		9
4.2.1 Purpose and planning		9
4.2.2 Data collection and verification		10
4.2.3 Analysis and results		11
4.2.4 Reporting		11
Annex A (informative) Example of a checklist for an energy efficiency benchmarking		12
Annex B (informative) Two examples of energy efficiency benchmarking data collection questionnaires		14
Annex C (informative) Checklist correction factors		18
Annex D (informative) Plausibility check of input data		19
Annex E (informative) Two examples of presentation of benchmarking output		20
Annex F (informative) Benchmarking as a management tool		22
Bibliography		23
