

DIN EN 16231:2012-11 (E)

Energy efficiency benchmarking methodology

Contents		Page
Foreword		3
Introduction		4
1	Scope	6
2	Normative references	6
3	Terms and definitions	6
4	Energy efficiency benchmarking methodology	9
4.1	Minimum requirements for energy efficiency benchmarking	9
4.2	Benchmarking steps	9
4.2.1	Purpose and planning	9
4.2.2	Data collection and verification	10
4.2.3	Analysis and results	11
4.2.4	Reporting	11
Annex A (informative)	Example of a checklist for an energy efficiency benchmarking	12
Annex B (informative)	Two examples of energy efficiency benchmarking data collection questionnaires	14
Annex C (informative)	Checklist correction factors	18
Annex D (informative)	Plausibility check of input data	19
Annex E (informative)	Two examples of presentation of benchmarking output	20
Annex F (informative)	Benchmarking as a management tool	22
Bibliography		23
