

IWA 16:2015-02 (E)

International harmonized method(s) for a coherent quantification of CO₂e emissions of freight transport

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Terms and definitions	1
3 Initiatives and documents included into the gap analysis	2
4 Boundaries of analysis	2
4.1 General	2
4.2 Processes included	3
4.2.1 On operation level	3
4.2.2 On network level	3
4.2.3 On cargo level	3
4.2.4 Definition and use of transport chain elements	3
4.3 Processes included on all calculation levels	4
4.3.1 Energy operational processes	4
4.3.2 Fugitive emissions	4
4.4 Processes not included	4
4.5 Processes and issues that should be assessed as to their inclusion	4
5 Gap analysis	5
5.1 General aspects	5
5.2 Mode specific gap analysis	6
5.3 Level specific gaps	23
6 Closing the current gaps	24
6.1 General aspects	24
6.2 Recommended next steps and format for next standardization developments	24
7 Conclusion	25
Annex A (informative) Workshop contributors	26
Bibliography	29
