Energy savings - Definition of a methodological framework applicable to calculation and reporting on energy savings

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Energy savings and methods for determination 3
4.1 General 3
4.2 Principles 4
4.3 Energy savings 4
4.4 System boundary(s) 5
4.5 Energy baseline determination 5
4.6 Unadjusted energy savings and adjusted energy savings 7
4.6.1 General 7
4.6.2 Use of adjustment(s) 9
4.6.3 Types of adjustments 10

5 Reporting energy savings 11
5.1 General information on reporting energy savings 11
5.2 Communication of energy saving results 12

Annex A (informative) Energy savings for different levels of analyses 13

Annex B (informative) Example of adjustment used in different energy saving calculation methods 15
