

ISO 37158:2019-07 (E)

Smart community infrastructures - Smart transportation using battery-powered buses for passenger services

| Contents | | Page |
|--|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | General | 1 |
| 5 | Operation of smart transportation using battery-powered buses | 2 |
| 5.1 | General | 2 |
| 5.2 | Minimum requirements to organize smart transportation | 2 |
| 5.2.1 | Recharging | 2 |
| 5.2.2 | Scheduling/dispatching | 2 |
| 5.2.3 | Maintenance work | 2 |
| 5.2.4 | Passenger services | 2 |
| 5.2.5 | Safety and ride comfort | 3 |
| 5.2.6 | Weather and climate conditions | 3 |
| 5.2.7 | Driving conditions | 3 |
| 5.2.8 | Driving skills/performance | 3 |
| 5.2.9 | Energy saving | 3 |
| 6 | Maintenance of the quality of smart transportation using battery-powered buses | 3 |
| 6.1 | General | 3 |
| 6.2 | Parameters to be observed | 3 |
| 6.3 | Modification of smart transportation | 3 |
| Annex A (informative) Trials given by Paris City in December 2016 to suppress air pollution by inviting citizens using internal-combustion-engine-driven vehicles to electrically-operated transportation services | | 4 |
| Annex B (informative) Example of cities and countries where battery-powered buses are operated ... | | 5 |
| Annex C (informative) A typical city aiming at low-carbon transportation[5] | | 6 |
| Bibliography | | 8 |
