Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Concept of smart transportation for newly developing areas 1
4.1 General 1
4.2 Transportation modes for newly developing areas 2
4.2.1 General 2
4.2.2 Transportation modes applicable inside newly developing areas 2
4.2.3 Transportation modes applied between a newly developing area and the outside region 3

5 Adoption of smart transportation for newly developing areas 3
5.1 General 3
5.2 Conditions for transportation mode selection 3
5.2.1 General 3
5.2.2 Transportation capacity 3
5.2.3 Service frequency 4
5.2.4 Stop/station interval 4
5.2.5 Geographical applicability 4
5.2.6 Running performance 4
5.2.7 Exclusive tracks and/or street lanes 4
5.2.8 Promotion of environmentally friendly vehicles and life-cycle performance 4
5.2.9 Coach convenience and safety 4
5.2.10 Town value and attractiveness 4
5.2.11 Emergency measures 5
5.2.12 Energy saving 5
5.2.13 Driverless operation applicability 5
5.2.14 On-time operation 5
5.2.15 Flexibility in track arrangements 5
5.3 Installation of smart transportation 5

6 Sustainability in quality of smart transportation for newly developing areas 5
6.1 General 5
6.2 Parameters to be observed 5
6.3 Re-optimization of smart transportation conditions 6

Annex A (informative) Transportation modes used in existing newly developing areas 7
