

# DIN CLC/TR 45550:2021-04 (E)

## Definitions related to material efficiency

---

<b>Contents</b>		<b>Page</b>
European foreword .....		3
Introduction .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	5
4	Terms and definitions related to material efficiency .....	5
4.1	General .....	5
4.2	Terms and definitions related to the general method for the assessment of the durability of energy-related products (from EN 45552:2020) .....	5
4.2.1	Terms related to durability and reliability .....	5
4.2.2	Terms related to functions .....	6
4.2.3	Terms related to the uses .....	7
4.2.4	Other terms .....	7
4.3	Terms and definitions related to the general method for the assessment of the ability to remanufacture energy-related products (from EN 45553:2020) .....	8
4.4	Terms and definitions related to the general methods for the assessment of the ability to repair, reuse and upgrade energy-related products (from EN 45554:2020) .....	8
4.5	Terms and definitions related to the general methods for assessing the recyclability and recoverability of energy-related products (from EN 45555:2019) .....	9
4.6	Terms and definitions related to the general method for assessing the proportion of reused components in energy-related products (from EN 45556) .....	11
4.7	Terms and definitions related to the general method for assessing the proportion of recycled material content in energy-related products (from EN 45557:2020) .....	11
4.7.1	Definitions related to materials .....	11
4.7.2	Other definitions .....	11
4.8	Terms and definitions related to the general method to declare the use of critical raw materials in energy-related products (from EN 45558:2019) .....	12
4.9	Terms and definitions related to the methods for providing information relating to material efficiency aspects of energy-related products (from EN 45559:2019) .....	14
Annex A (Informative) Alphabetic index of terms .....		15
Bibliography .....		16
