DIN EN 17669:2023-03 (E)

Energy Performance Contracts - Minimum requirements

Contents

Page

European foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Scope and boundaries of the EPC 9

5 EPC's energy targets 10

6 Contractual energy baseline 11

7 Specification and description of the EPIA(s) 12

8 Methodology for the evaluation of the energy efficiency improvement (ex-post) 13

9 Methodology for the evaluation of other improvement measures (ex post) 14

10 Energy service provider obligations 14

11 Beneficiary and energy service provider obligations for EPIAs on assets owned by the beneficiary 15

12 Additional obligations of the energy service provider 16

13 Beneficiary obligations 16

14 Financing mechanisms 16

15 Guaranteed savings 17

16 Reporting for other improvement measures 18

17 Duration 18

18 Payment mechanisms - Invoicing 19

19 Risk assessment, mitigation and allocation 20

20 Insurance 20

21 Exclusions 21

Annex A (informative) Statistical analysis to determine baseline EnPI and EnPIv 22

Annex B (informative) Business plan of an EPC without energy supply in its scope 26

Annex C (informative) Example of Risk allocation matrix 36
