

ISO 37109:2023-01 (E)

Sustainable cities and communities - Recommendations and requirements for project developers - Meeting ISO 37101 framework principles

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Context of the project	3
4.1	General	3
4.2	Requirements for a project inception	3
4.2.1	General	3
4.2.2	Project rationale (initial definition of the project scope)	3
4.2.3	Situation (baseline review)	3
4.2.4	Definition of the project's operational management system within the region	4
4.3	Tools	4
4.3.1	General	4
4.3.2	Stakeholders mapping tool	4
4.3.3	Relevance tool	4
5	Leadership within the project context	4
5.1	General	4
5.2	Requirements for a project implementation	5
5.2.1	Leadership and engagement	5
5.2.2	Political leadership	5
5.2.3	Tools	5
6	Planning during the project's three life cycle stages	5
6.1	General	5
6.2	Requirements for project implementation	5
6.2.1	Involvement of interested parties and other projects	5
6.2.2	Definition of operational objectives	5
6.2.3	Risk mitigation	6
6.2.4	Action plans for regional transfer	6
6.3	Tools	6
6.3.1	Usual implementation tools	6
6.3.2	Complementary aligning tool functionalities	6
7	Support during the project stages	7
7.1	General	7
7.2	Requirements for a project implementation	7
7.2.1	Financial aspects and human resources	7
7.2.2	Other resources (Life cycle analysis/ Assessment)	7
7.2.3	Awareness raising and education	7
7.2.4	Communication	7
7.2.5	Documentation traceability	7
7.3	Tools	7
8	Operations (operational activities and transfer)	8

8.1	General	8
8.2	Requirements for project implementation	8
8.2.1	Involvement of interested parties and other projects	8
8.2.2	Overseeing the coherence of strategies, projects, plans, and services	8
8.2.3	Transfer to the community -- Support for transfer of ownership	8
8.3	Tools	8
8.3.1	General	8
8.3.2	Transfer tool key	8
9	Performance and evaluation	9
9.1	General	9
9.2	Requirements for project implementation	9
9.2.1	Monitoring, measurement, analysis and assessment	9
9.2.2	Internal audit	9
9.2.3	Management review	9
9.3	Tools	9
10	Improvement	9
10.1	General	9
10.2	Requirements for project implementation	10
10.2.1	Non-conformance and corrective action	10
10.2.2	Feedback	10
10.2.3	Continual improvement	10
10.3	Tools	10
Annex A (informative) Conceptual perspectives		11
Annex B (normative) Key tools		23
Bibliography		31
