

ISO 37179:2024-11 (E)

Smart community infrastructures - Disaster risk reduction - Basic framework for implementation

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Principles	3
4.1	General	3
4.2	Stakeholder inclusiveness	4
4.3	Optimized resource allocation for operations	4
4.4	Harmonization and dissemination of technology for DRR	5
4.5	Robustness and redundancy	5
4.6	Science-based approach	5
4.7	Critical function focus	5
4.8	Structural and non-structural measures	5
4.9	Investment in advance	6
4.10	Response preparedness	6
4.11	Continuous improvement	6
5	General requirements	6
5.1	General	6
5.2	Stakeholder inclusiveness	6
5.3	Optimized resource allocation for operations	7
5.4	Harmonization and dissemination of technology for DRR	7
5.5	Robustness and redundancy	7
5.6	Science-based approach	8
5.7	Critical function focus	8
5.8	Structural and non-structural measures	8
5.9	Investment in advance	8
5.10	Response preparedness	9
5.11	Continuous improvement	9
