## Biodiversity - Process for designing and implementing biodiversity net gain in development projects

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Abbreviated terms .....	4
5	Requirements for all stages of the BNG process .....	5
5.1	BNG requirements .....	5
5.2	Measuring change .....	6
6	Preparation .....	7
6.1	General .....	7
6.2	Recording a commitment to achieving BNG .....	7
6.3	Assessing the feasibility of achieving BNG .....	8
6.4	Informing decisions on project option appraisal .....	10
7	Environmental assessment and design .....	11
7.1	General .....	11
7.2	Environmental assessment .....	11
7.2.1	Establishing the project's biodiversity baseline .....	11
7.2.2	Assessing impacts and applying the mitigation hierarchy .....	12
7.2.3	Reporting the environmental impact assessment .....	13
7.3	Designing BNG .....	13
7.3.1	General .....	13
7.3.2	Setting and documenting measurable BNG targets .....	13
7.3.3	Applying the principle of like-for-like or better .....	14
7.3.4	Informing the project design .....	15
7.3.5	Consulting interested parties and stakeholders .....	15
7.3.6	BNG options .....	16
7.3.7	Avoiding then reducing the time lag between losses and net gains .....	16
7.3.8	Avoiding then reducing the distance between losses and net gains .....	17
7.3.9	Additionality .....	17
7.3.10	Making a long-term contribution towards conservation priorities .....	17
7.3.11	Prioritizing achievement of the project's BNG targets .....	18
7.3.12	Assessing feasibility of delivering BNG .....	18
7.3.13	Finalizing BNG design outputs .....	18
7.3.14	Management and monitoring plan .....	19
7.3.15	Handover from design to implementation .....	20
7.3.16	Design changes .....	20
8	Implementation .....	20
8.1	General .....	20
8.2	Site set up .....	20
8.3	Protecting existing biodiversity features .....	21
8.4	Importance of time of year .....	21

8.5	Recording during implementation works .....	21
8.6	BNG agreement .....	21
8.7	Handover from implementation to management .....	22
9	Management, monitoring and reporting .....	22
9.1	Implementation of the MMP .....	22
9.2	Monitoring .....	23
9.3	Record management .....	23
9.4	Reporting .....	23
9.5	Handover .....	24
10	Auditing .....	24
	Annex A (informative) Elements for consideration at different stages of the process .....	25
	Annex B (informative) Irreplaceable biodiversity features .....	27
	Annex C (informative) Examples of BNG design measures .....	28
	Annex D (normative) BBOP Principles on Biodiversity Offsets .....	30
	Bibliography .....	31
