

# ISO/TS 22117:2010-11 (E)

## Microbiology of food and animal feeding stuffs - Specific requirements and guidance for proficiency testing by interlaboratory comparison

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Scheme design and purpose .....	2
4.1	General .....	2
4.2	Scheme objectives .....	2
4.3	Laboratory requirements for schemes .....	3
4.4	Choice of test matrices .....	3
4.5	Information on test methods used by the PT provider .....	3
4.6	Statistical design .....	3
5	Technical requirements and guidance for sample design and content .....	4
5.1	Target organisms level .....	4
5.2	Sources, characterization and traceability of organisms .....	4
5.3	Background and competitive flora .....	5
5.4	Matrix selection and effects .....	5
6	Sample verification by the provider .....	5
6.1	General .....	5
6.2	Sample homogeneity testing -- General considerations .....	5
6.3	Homogeneity testing for quantitative (enumeration) samples .....	6
6.4	Homogeneity testing for qualitative methods .....	7
6.5	Stability testing by the provider .....	7
7	Sample handling .....	8
7.1	General .....	8
7.2	Instructions to participants .....	8
8	Performance evaluations .....	9
8.1	General .....	9
8.2	Preliminary considerations .....	9
8.3	Quantitative methods .....	9
8.4	Assessment of qualitative methods .....	16
Annex A (informative) Example of details to be included in a PT scheme plan .....		19
Annex B (informative) Methods of testing for variation between portions of test materials .....		21
Annex C (informative) A practical method to assess long-term performance of participants in PT schemes using enumeration methods .....		24
Annex D (informative) Example of a safety data sheet .....		26
Bibliography .....		28
