

# ISO 14470:2011-12 (E)

## Food irradiation - Requirements for the development, validation and routine control of the process of irradiation using ionizing radiation for the treatment of food

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Controlling the food irradiation process .....	6
4.1	Responsibility and authority .....	6
4.2	Product realization .....	6
4.3	Monitoring, measurement and analysis .....	6
4.4	Technical agreement .....	6
4.5	Documentation .....	7
5	Irradiation facilities .....	7
5.1	Design .....	7
5.2	Radiation sources .....	7
5.3	Equipment .....	7
5.4	Personnel .....	8
6	Product .....	8
6.1	Product definition .....	8
6.2	Product specification .....	9
7	Process .....	9
7.1	Process definition -- Dose range .....	9
7.2	Process specification .....	9
8	Dosimetry .....	10
9	Validation .....	10
9.1	Installation qualification (IQ) .....	10
9.2	Operational qualification (OQ) .....	10
9.3	Performance qualification (PQ) .....	11
9.4	Review and approval of validation .....	13
10	Routine monitoring and control .....	13
10.1	Process parameters .....	13
10.2	Product-loading configuration .....	14
10.3	Routine dosimetry .....	14
10.4	Processing inventory control .....	14
10.5	Labelling .....	14
10.6	Process interruptions .....	15
10.7	Irradiation process records .....	15
11	Product release from irradiation process .....	15
12	Maintaining process effectiveness .....	15

12.1	Demonstration of continued effectiveness .....	15
12.2	Equipment calibration .....	15
12.3	Recalibration .....	16
12.4	Maintenance of equipment .....	16
12.5	Requalification of the irradiation process .....	16
12.6	Assessment of change .....	16
Annex A (informative) Guidelines .....		17
Bibliography .....		19
