DIN EN ISO 6498:2012-09 (E)

Animal feeding stuffs - Guidelines for sample preparation (ISO 6498:2012)

Contents

Page

Foreword .....

1 Scope .....

2 Termsanddefinitions .....
2.1 Definitionsconcerning"sample" .....
2.2 Definitionsconcerning"parameters" .....
2.3 Examples of animal feeding stuffs characteristics .....
2.4 Definitionsconcerning"samplepreparationprocedure" .....

3 Principle .....

4 Consideration of sample preparation errors .....
4.1 Subsampling and other errors .....
4.2 Minimum mass .....
4.3 Errors associated with division techniques .....

5 Safety precautions 13

6 Apparatus 13

7 Procedure 15
7.1 General 15
7.2 Sample check 15
7.3 Mass reduction 17
7.4 Particle size reduction .....
7.5 Partial drying 23
7.6 Coarse grinding 25
7.7 Special sample preparation procedures 25
7.8 Storage 25

8 Performance tests (quality control) 25
8.1 General 25
8.2 Performance test for mass reduction (division) 26
8.3 Performance test for particle size reduction (grinding) 27
8.4 Performance test for mixing 28

9 Categoriesoffeeds--Specialremarksandflowcharts 28
9.1 General 28
9.2 Birdseed 29
9.3 Whole cottonseed .....
9.4 Mineral mix .....
9.5 Dry feeds .....
9.6 Forages including silage, hay, haylage, TMR and byproducts 33
9.7 Oilseeds and high-fat feeds 35
9.8 Large block and molasses block feeds 36
9.9 Liquid feeds 38
9.10 Canned pet food 38
9.11 Semi-moist pet food and dog chews 39
9.12 Premixtures .....
9.13 Range and alfalfa hay pellets .....
9.14 Texturized and sticky feed .....

9.15 Aquatic feeds 43

Annex A (informative) Calculations, examples and tables for minimum mass 45
