Introduction 4

1 Scope 5

2 Normative references 5

3 Principle 5
3.1 General 5
3.2 DNA extraction 6
3.3 DNA quantitation 6

4 General laboratory requirements 6

5 Procedure 6
5.1 Preparation of the test portion 6
5.2 DNA extraction/purification 8
5.3 Quantitation of the extracted DNA 9
5.4 Stability of extracted DNA 10

6 Interpretation 10

7 Test report 10

Annex A (informative) Methods for DNA extraction 11
