Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5
3.1 General definitions 5
3.2 Terms relative to extraction and purification of DNA 9
3.3 Terms referring to DNA amplification and PCR 9
3.4 Definitions referring to DNA and PCR controls 10
3.5 Terms relative to reference materials 11
3.6 Terms relative to quantitation 11
3.7 Terms relative to GMOs 11

4 Application to the relevant International Standards 12
4.1 General 12
4.2 Guidance for the user on the selection of methods 13
4.3 Performance characteristics 14

5 General laboratory and procedural requirements 15
5.1 General 15
5.2 Use of controls 15
5.3 Laboratory organization 16

6 Interpretation and expression of results 18
6.1 General 18
6.2 Interpretation of controls 18
6.3 Expression of a negative result 19
6.4 Expression of a positive result 19
6.5 Expression of ambiguous results 19
6.6 Quality assurance requirements 20

7 Test report 20
