Foreword 3

Introduction 4

1 Scope 5

2 Normative references 6

3 Terms and definitions 6

4 Requirements 6

5 Test method 7
5.1 Principle 7
5.2 Materials and reagents 7
5.3 Apparatus and glassware 11
5.4 Preparation of test organism suspensions and product test solutions 13
5.5 Procedure for assessing the fungicidal or yeasticidal activity of the product 18
5.6 Experimental data and calculation 24
5.7 Verification of methodology 27
5.8 Expression of results and precision 28
5.9 Interpretation of results - conclusion 29
5.10 Test report 29

Annex A (informative) Referenced strains in national collections 31

Annex B (informative) Examples of neutralizers of the residual antimicrobial activity of chemical disinfectants and antiseptics and rinsing liquids 32

Annex C (informative) Graphical representations of dilution-neutralization method and membrane filtration method 34

Annex D (informative) Example of a typical test report 38

Annex E (informative) Precision of the test result 44
