

DIN EN 16318:2014-02 (E)

Fertilizers - Determination of trace elements - Determination of chromium (VI) by photometry (method A) and by ion chromatography with spectrophotometric detection (method B)

Contents		Page
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Sampling and sample preparation	4
5	Method A: Determination by water extraction and spectrophotometric detection	5
5.1	Principle	5
5.2	Reagents	5
5.3	Apparatus	6
5.4	Procedure	6
5.4.1	Preparation of the test solution	6
5.4.2	Preparation of the blank test solution	7
5.4.3	Spectrophotometric measurement	7
5.5	Calculation and expression of the results	7
5.5.1	Calibration	7
5.5.2	Calculation of the element content in the sample	7
6	Method B: Determination by alkaline digestion and ion chromatography with spectrophotometric detection	8
6.1	Principle	8
6.1.1	Digestion	8
6.1.2	Determination	8
6.1.3	Interferences and sources of error	9
6.2	Reagents	9
6.3	Apparatus	11
6.4	Alkaline digestion procedure	11
6.4.1	General	11
6.4.2	Preparation of test solutions using a hotplate or heating block	11
6.5	Procedure	12
6.5.1	Instrumental set-up	12
6.5.2	Calibration	12
6.5.3	Test solution measurement	12
6.6	Quality control	13
6.6.1	General	13
6.6.2	Blank test solution	13
6.6.3	Verification of method	13
6.6.4	Duplicate samples	13
6.6.5	Cr(VI) spiked samples	13
6.6.6	Cr(III) spiked samples	14
6.6.7	Interpretation of Quality Control data	14
6.7	Calculation and expression of results	14
6.7.1	Calculation	14
6.7.2	Expression of results	15
7	Precision	15

8	Test report	15
	Annex A (informative) Results of the inter-laboratory test performed by VDLUFA on method A	16
A.1	Inter-laboratory tests	16
A.2	Statistical results for the determination of chromium(VI) by photometry (method A)	16
	Annex B (informative) Results of a validation study on spiked water samples	17
	Bibliography	18
