## Cereals and pulses - Determination of the nitrogen content and calculation of the crude protein content - Kjeldahl method

---

| <b>Contents</b>   |   | <b>Page</b> |
|---|---|-------------|
| Foreword .....  |   | iv          |
| 1   | Scope .....                                     | 1           |
| 2   | Normative references .....                      | 1           |
| 3   | Terms and definitions .....                     | 1           |
| 4   | Principle .....                                 | 2           |
| 5   | Reagents .....                                  | 2           |
| 6   | Apparatus .....                                 | 3           |
| 7   | Sampling .....                                  | 3           |
| 8   | Preparation of test sample .....                | 3           |
| 9   | Determination of the moisture content .....     | 4           |
| 10  | Procedure .....                                 | 4           |
| 10.1  | General .....                                   | 4           |
| 10.2  | Test portion .....                              | 4           |
| 10.3  | Determination .....                             | 4           |
| 10.4  | Blank test .....                                | 5           |
| 10.5  | Test with reference material (check test) ..... | 5           |
| 11  | Expression of results .....                     | 5           |
| 11.1  | Nitrogen content .....                          | 5           |
| 11.2  | Crude protein content .....                     | 6           |
| 12  | Precision .....                                 | 6           |
| 12.1  | Interlaboratory test .....                      | 6           |
| 12.2  | Repeatability .....                             | 6           |
| 12.3  | Reproducibility .....                           | 6           |
| 12.4  | Critical difference .....                       | 6           |
| 13  | Test report .....                               | 7           |
| Annex A (informative) Results of interlaboratory tests .....  |   | 8           |
| Annex B (informative) Critical difference and practical application of the repeatability and reproducibility limits to different protein contents ..... |   | 10          |
| Annex C (informative) Factors for converting nitrogen content to protein content .....  |   | 12          |
| Bibliography .....  |   | 13          |
