DIN 6650-6:2014-12 (En glisch)

Dispense systems for draught beverages - Part 6: Requirements for cleaning and disinfection

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Cleaning and disinfection target 5

5 Cleaning and disinfection intervals 5

6 Cleaning and disinfection procedures 7
6.1 General 7
6.2 Chemical cleaning 7
6.3 Chemical-mechanical cleaning 7
6.4 Disinfection methods 7

7 Requirements for cleaning agents and disinfectants 8
7.1 General 8
7.2 Requirements for mechanical cleaning devices 8
7.3 Requirements for cleaning agents and disinfectants 8

8 Requirements for cleaning equipment 8

9 Cleaning and disinfection procedures 8

10 Documentation of cleaning and disinfection 9

11 Testing 9
11.1 Checking the success of cleaning operations 9
11.2 Determining the need for cleaning 9
11.3 Microbiological testing for specific types of beverage 10
11.3.1 Water coolers 10
11.3.2 Beer 10

Annex A (normative) Microbiological testing to determine cleaning success in accordance with 11.2 11

Annex B (informative) Microbiological testing of filtered beer 12
