DIN EN 15948:2015-06 (E)

Cereals - Determination of moisture and protein - Method using Near-Infrared-Spectroscopy in whole kernels

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Principle 5

5 Method of analysis 5
5.1 General 5
5.2 Near Infrared Instrument 6
5.3 Prediction models 6
5.4 Initial validation of the model 6
5.4.1 General 6
5.4.2 Initial validation sample set 6
5.4.3 Initial validation performances 7
5.5 Update of calibration model and validation of new model 7

6 Sampling 7

7 Procedure 7
7.1 Preparation of the test sample 7
7.2 Measurement 7
7.3 Local validation of the method 7
7.4 Periodical adjustment of the instrument 8
7.5 Checking instrument stability 8
7.6 Follow up of method performance 8

8 Calculation and expression of results 8

9 Accuracy and precision of the method 9
9.1 Accuracy 9
9.2 Precision 9
9.2.1 General 9
9.2.2 Repeatability 9
9.2.3 Reproducibility 9
9.2.4 Critical difference 10

10 Test Report 11

Annex A (informative) Results of examples of interlaboratory test 12

A.1 FOSS interlaboratory test 12
A.2 PERTEN interlaboratory test 17
A.3 CHOPIN Technologies interlaboratory test 21

Annex B (informative) Validation of ANN prediction model WB003034 29

B.1 ANN prediction model WB003034 with associated database 29

B.2 Results of validation according to EN ISO 12099 29
B.3 Stability and robustness 31

Annex C (informative) Validation of Inframatic 9500 prediction models 33

C.1 Perten Inframatic 9500 prediction models 33
C.2 Results of validations according to EN ISO 12099 33

Annex D (informative) Validation of Infraneo prediction models 39

D.1 CHOPIN Technologies Infraneo prediction models 39
D.2 Results of validation according to EN ISO 12099 39
