Foreword		5
1	Scope	6
2	Normative references	7
3	Terms and definitions	7
4	Principle	7
5	Diluents	7
6	Apparatus	7
7	Sampling and sample types	8
7.1	General procedures	8
7.2	Specific procedures for sampling bivalve molluscs, echinoderms and tunicates from primary production	8
7.2.1	General	8
7.2.2	Sampling and laboratory sample transport	8
7.2.3	Sampling method	8
7.2.4	Size and number of individuals per sample	9
7.2.5	Temperature control during transport	9
7.3	Specific procedures for sampling bivalve molluscs, gastropods, echinoderms and tunicates placed on the market	9
8	General procedures	9
9	Specific procedures	9
9.1	Raw fishery products, including fish, crustaceans, molluscs, tunicates and echinoderms (see Annex A)	9
9.1.1	Whole fresh fish (more than 15 cm in length)	9
9.1.2	Whole fresh fish (less than 15 cm in length)	10
9.1.3	Sliced fish, fillets and steaks	10
9.1.4	Whole and sliced cephalopods	10
9.1.5	Whole crustacea such as crabs	10
9.1.6	Shelled crustacea flesh	10
9.1.7	Crustacea such as prawns, crayfish, and lobsters	11
9.1.8	Live bivalve molluscs	11
9.1.9	Echinoderms	12
9.2	Processed products	12
9.2.1	Whole smoked fish	12
9.2.2	Smoked fish fillets and slices, with or without skin	13
9.2.3	Whole cooked molluscs in the shell	13
9.2.4	Fish and fish-based multi-component products (e.g. pre-prepared fish taco, mixed seafood selections, mixed fish ball)	13
9.2.5	Cooked or precooked shelled bivalves	13

9.2.6	Salted or pickled products (including fish eggs/roe such as caviar)	13
9.2.7	Dried fish including dried salted fish	14
9.2.8	Fermented products	14
9.2.9	Marinated products	14
9.2.10	Breaded products	14
9.3	Frozen fish, crustacea, molluscs, tunicates, and echinoderms	14
9.3.1	Fish fillets, large fish pieces frozen in blocks, frozen small parts and single portions	14
9.3.2	Shelled crustacea (such as prawns) frozen in blocks	14
9.3.3	Whole crustacea (such as prawns) frozen in blocks	14
9.3.4	Flaked crustacean flesh (such as crab meats) frozen in blocks	14
9.3.5	Molluscs (whole cephalopods, bivalve molluscs and gastropods)	15
10	Further dilutions	15
Annex A (informative) Classification of major taxa		16
Annex B (informative) Recommended number of individual live bivalve molluscs to be submitted to the laboratory		17
Annex C (informative) Additional guidance for small fish, crabs and lobsters		18
