## Cosmetics - Analytical method - Detection and quantitative determination of Diethanolamine (DEA) by GC/MS

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principle .....	1
5	Procedure .....	2
5.1	Preparation of calibration solutions .....	2
5.1.1	Stock solution .....	2
5.1.2	Standard solution .....	2
5.1.3	Calibration solutions .....	2
5.2	Sample preparation .....	2
5.3	Analysis .....	2
5.3.1	General .....	2
5.3.2	Example of instrumental conditions .....	3
5.3.3	Recovery .....	3
5.3.4	Calibration curve .....	3
5.4	Determination .....	4
6	Limit of quantification .....	4
Annex A (informative) Examples of typical GC-MS chromatogram of standard DEA .....		5
Bibliography .....		7
