Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Principles 2
4.1 Representative samples 2
4.2 Oilseeds sampling 2

5 Equipment and devices 3

6 Time and place of sampling and limitation of the size of lots 3
6.1 General information 3
6.2 Bulk transfer 3
6.2.1 General 3
6.2.2 Transfer to lorries and wagons 3
6.2.3 Transfer to barges 3
6.2.4 Transfer to silos or warehouses 4
6.3 Lot size: number of laboratory samples 4

7 Method for taking samples 5
7.1 General information 5
7.2 Number of increments 5
7.2.1 General requirements on taking increments 5
7.2.2 Products in bags 5
7.2.3 Products in bulk 5
7.2.4 Aggregation of the bulk sample 6
7.2.5 Division of the bulk sample 6
7.2.6 Sample dividers 7

8 Sample size per lot and for dispatch to the laboratory 8

9 Packing and labelling of samples 8
9.1 Packing of samples 8
9.2 Labelling of samples 8

10 Dispatch of samples 9

11 Sampling report 9

Annex A (informative) Steps for laboratory samples 10

Annex B (informative) Instruments used to sample static products 11
