European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Principle 6

5 Reagents 6

6 Apparatus 7

7 Sampling 8

8 Preparation of test sample 8

9 Procedure 8
9.1 General 8
9.2 Extraction 8
9.3 Calibration 9
9.4 Measurement of the calibration standards and sample solutions 10
9.5 Confirmation of identity 10

10 Calculation and expression of results 11

11 Precision 11
11.1 Interlaboratory test 11
11.2 Repeatability 12
11.3 Reproducibility 12

12 Test report 12

Annex A (normative) Flow chart 13

Annex B (informative) Precision data -- Results of the validation study 14
