ISO 34101-4:2019 (E)

Sustainable and traceable cocoa — Part 4: Requirements for certification schemes

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Scheme owner requirements

5 Scheme development and management

6 Publicly available information

7 Complaints and appeals to the scheme owner

8 Requirements for certification bodies

- 8.1 General
- 8.2 Requirements for processes additional to those specified in ISO/IEC 17021-1
- 8.3 Audit cycle for the cocoa bean producing organization
- 8.4 Audit cycle for cocoa supply chain actors
- 8.4.1 General
- 8.4.2 Certification or recertification audit
- 8.4.3 Surveillance audits
- 8.5 Sampling
- 8.6 Methods to obtain information during audit
- 8.7 Time needed for an audit
- 8.8 Timeframe for resolving nonconformities
- 8.9 Expiration of a certificate
- 8.10 Re-obtaining a certificate
- 8.11 Requirements for competence of auditors additional to those specified in ISO/IEC 17021-1

9 Claims

- 9.1 General requirements
- 9.2 Conditions under which the client can use a claim
- 9.3 Business-to-business (B2B) claims
- 9.4 Business-to-consumer (B2C) claims

10 Third-party mark of conformity

11 Licensing and control

Annex A (normative) Requirements for cocoa sustainability management systems at entry level

- A.1 General
- A.2 Determining the scope of the cocoa sustainability management system
- A.3 External provision of processes, products and services
- A.4 Registration of farmers to become part of the organization
- A.4.1 Specific communication to farmers considering registration to become part of the organization (sensitization process)
- A.4.2 Registration of farmers

A.4.2.1 Process
A.4.2.2 Information
A.4.3 Confirmation of the registration of farmers
A.4.4 Data ownership
A.5 Leadership and commitment
A.6 Organizational roles, responsibilities and authorities
A.7 Non-discrimination and farmer representation
A.8 Training and coaching
A.9 Resources, cost identification and recovery mechanisms
A.10 Competence
A.11 Documented information
A.12 Annual work plan and communication
A.13 Cocoa farm development plan (CFDP)
A.14 Traceability
A.15 Performance evaluation
A.16 Internal audit
A.17 Management review
A.18 Nonconformity and corrective action
A.19 Improvement

Annex B (normative) Requirements for cocoa sustainability management systems at medium level

B.1 General
B.2 Context of the organization
B.3 Policy
B.4 Planning to achieve the cocoa sustainability objectives
B.5 Awareness
B.6 Changes to requirements for sustainable cocoa production
B.7 Performance evaluation
B.8 Internal audit
B.9 Management review

Annex C (informative) Examples of risks to be assessed

C.1 Standards-related risks
C.2 Assessment process-related risks
C.3 System-related risks

Annex D (informative) Risk-based control and review of certification bodies
