

ISO/TS 23942:2020 (E)

Determination of hydroxytyrosol and tyrosol content in extra virgin olive oils — Reverse phase high performance liquid chromatography (RP-HPLC)

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Principle
5	Reagents
6	Apparatus
7	Sampling
8	Procedure
8.1	Sample preparation
8.2	HPLC analysis
8.2.1	General
8.2.2	HPLC conditions
8.2.3	Peak identification
9	Expression of results
10	Precision
10.1	Validation study
10.2	Repeatability, r
10.3	Reproducibility, R
11	Test report
Annex A	(informative) Chromatogram 280 nm
Annex B	(normative) Limit of detection (LOD) and limit of quantification (LOQ)
Annex C	(informative) Validation study
