ISO 7970:2021 (E)

Wheat (Triticum aestivum L.) — Specification

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Requirements

- 4.1 General characteristics and sensory properties
- 4.2 Health characteristics
- 4.3 Physical and chemical characteristics
- 4.3.1 Moisture content
- 4.3.2 Bulk density
- 4.3.3 Impurities
- 4.3.4 α-Amylase activity

5 Sampling

6 Test methods

Annex A (informative) Indicative list of harmful and toxic seeds

Annex B (informative) Unacceptable mites and insect pests of stored cereals

Annex C (normative) Determination of impurities

- C.1 Principle
- C.2 Apparatus
- C.3 Sampling
- C.4 Procedure
- C.4.1 General
- C.4.2 Preparation of test sample
- C.4.3 Determination of ergot
- C.4.4 First division
- C.4.5 First sieving
- C.4.6 Second division
- C.4.7 Second sieving
- C.4.8 Number of determinations
- C.5 Expression of results
- C.6 Precision
- C.6.1 General
- C.6.2 Repeatability
- C.6.3 Reproducibility
- C.6.4 Uncertainty
- C.7 Test report

Annex D (informative) Practical application of fidelity data for different classes of impurities

Page count: 22
