ISO 23036-2:2021 (E)

Microbiology of the food chain — Methods for the detection of Anisakidae L3 larvae in fish and fishery products — Part 2: Artificial digestion method

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

- 4.1 General
- 4.2 Sample size
- 4.3 Sample preparation
- 4.4 Digestion of the sample
- 4.5 Filtration of the digest fluid
- 4.6 Verification of findings

5 Reagents

6 Equipment and consumables

7 Sampling

8 Procedure

- 8.1 Preparation of the sample
- 8.2 Preparation of the digest fluid
- 8.3 Digestion of the sample in the glass beaker
- 8.4 Filtration of the digest fluid
- 8.5 Microscopic examination

9 Expression of the results

10 Performance characteristics of the method

11 Test report

12 Quality assurance

Annex A (informative) Sample collection

Annex B (informative) Example of a laboratory worksheet for recording data when testing fish fillets with the artificial digestion method
