ISO 23036-1:2021 (E)

Microbiology of the food chain — Methods for the detection of Anisakidae L3 larvae in fish and fishery products — Part 1: UV-press method

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Equipment and consumables

6 Sampling

7 Procedure

- 7.1 Weighing the sample
- 7.2 Preparation of the sample
- 7.3 Pressing
- 7.4 Freezing
- 7.5 Thawing
- 7.6 Visual inspection

8 Expression of the results

9 Performance characteristics of the method

10 Test report

11 Quality assurance

Annex A (informative) Sample collection

Annex B (informative) Findings after UV-press method

Annex C (informative) Example of a laboratory worksheet for recording data when testing fish fillets with the UV-press method
