

# DIN EN ISO 11132:2021-12 (E)

## Sensory analysis - Methodology - Guidelines for the measurement of the performance of a quantitative descriptive sensory panel ( ISO 11132:2021)

---

| <b>Contents</b>   |  | <b>Page</b> |
|---|--|-------------|
| European foreword .....   |  | 3           |
| Foreword .....  |  | 4           |
| Introduction .....  |  | 5           |
| <b>1</b>  | <b>Scope</b> .....   | <b>6</b>    |
| <b>2</b>  | <b>Normative references</b> .....  | <b>6</b>    |
| <b>3</b>  | <b>Terms and definitions</b> .....   | <b>6</b>    |
| <b>4</b>  | <b>Principle</b> .....   | <b>8</b>    |
| 4.1   | Two possible approaches .....  | 8           |
| 4.1.1   | General .....  | 8           |
| 4.1.2   | Performance measurement via a dedicated procedure .....                          | 8           |
| 4.1.3   | Ongoing monitoring via routine product profiling .....                           | 9           |
| 4.2   | Indicators of panel or individual assessor performance .....                     | 9           |
| 4.3   | Statistical analyses .....   | 10          |
| <b>5</b>  | <b>Prerequisites</b> .....   | <b>10</b>   |
| 5.1   | Experimental conditions .....  | 10          |
| 5.2   | Qualification of assessors .....   | 10          |
| <b>6</b>  | <b>Performance measurement via a dedicated procedure</b> .....                   | <b>10</b>   |
| 6.1   | Sample and attribute selection .....   | 10          |
| 6.2   | Experimental designs .....   | 10          |
| 6.2.1   | General .....  | 10          |
| 6.2.2   | Randomized block design .....  | 11          |
| 6.2.3   | Balanced and random designs .....  | 11          |
| 6.2.4   | Same order design .....  | 11          |
| 6.3   | Statistical analyses .....   | 12          |
| 6.4   | Performance of the overall panel — Interpretation of statistical output .....    | 14          |
| 6.4.1   | Key attribute discrimination .....   | 14          |
| 6.4.2   | Agreement at panel level .....   | 14          |
| 6.4.3   | Repeatability of the panel .....   | 15          |
| 6.5   | Performance of individual assessors — Interpretation of statistical output ..... | 15          |
| 6.5.1   | Discrimination ability of an assessor .....                                      | 15          |
| 6.5.2   | Repeatability of an assessor .....   | 15          |
| 6.5.3   | Consistency of an assessor .....   | 15          |
| 6.5.4   | Agreement among assessors .....  | 16          |
| 6.5.5   | Bias — Different use of scale .....  | 16          |
| 6.6   | Performance issues .....   | 17          |
| 6.6.1   | General .....  | 17          |
| 6.6.2   | Panel .....  | 17          |
| 6.6.3   | Individual assessor .....  | 17          |
| 6.7   | Experimental design for following up the performance over time .....             | 17          |
| <b>7</b>  | <b>Procedure for ongoing monitoring via routine product profiling</b> .....      | <b>17</b>   |
| 7.1   | Attribute selection .....  | 17          |
| 7.2   | Statistical analyses .....   | 17          |
| 7.3   | Following up the performance over time .....                                     | 17          |
| 7.4   | Statistical analysis of data over time .....                                     | 17          |
| 7.5   | Statistical analysis of complete profiles .....                                  | 18          |
| <b>Annex A (informative) Example of a practical application</b> ..... |  | <b>19</b>   |
| <b>Bibliography</b> .....   |  | <b>27</b>   |
