

ISO/TR 5729:2021 (E)

Evaluation of physical parameters of filter paper substrates for the determination of the ignition propensity of cigarettes

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Parameters to specify filter papers for use as substrates in ignition propensity testing
5	Establishing acceptable ranges for filter paper physical parameters
6	Correlation of paper physical parameters with ignition propensity testing
7	Report — substrate papers physical parameter testing
7.1	Substrate specifications
7.2	Mean ± 3 standard deviation plots based on specifications
7.3	ANOVA outputs
7.4	Control Charts
8	Conclusion
