Microbiology of the food chain - Technical requirements and guidance on the establishment or revision of a standardized reference method

Contents		Page
Foreword		iv
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Technical procedure for standardizing a new reference method	3
4.1	General	3
4.2	Technical steps	3
4.2.1	Step 1: Method(s) selection (mandatory)	3
4.2.2	Step 2: Method(s) optimization (optional)	4
4.2.3	Step 3: Method(s) evaluation study (recommended)	4
4.2.4	Step 4: "Real life" study (recommended)	5
4.2.5	Step 5: Selection of one candidate reference method for further validation (mandatory)	5
4.2.6	Step 6: Interlaboratory study (mandatory)	5
5	Technical procedure for revising a standardized reference method	7
Annex A (informative) Flow chart on technical steps for the establishment or revision of a standardized reference method		9
Annex B (informative) Guidance on optimization studies to compare two options in the development of a new standardized reference method or for its revision		10
