|-----------------------|--|-------------|
| Foreword .....        |  | iv          |
| Introduction .....    |  | v           |
| 1                     | Scope .....  | 1           |
| 2                     | Normative references .....   | 1           |
| 3                     | Terms and definitions .....  | 1           |
| 4                     | Principle .....  | 2           |
| 5                     | Reagents .....   | 3           |
| 5.1                   | General .....  | 3           |
| 5.2                   | Solvents and chemicals .....   | 3           |
| 5.3                   | Standard and reference compounds .....   | 3           |
| 5.4                   | Working solutions .....  | 4           |
| 5.5                   | Other solutions .....  | 4           |
| 6                     | Apparatus .....  | 4           |
| 7                     | Sample .....   | 5           |
| 7.1                   | Sampling .....   | 5           |
| 7.2                   | Preparation of the test sample .....   | 5           |
| 8                     | Procedure .....  | 5           |
| 8.1                   | Spiking with surrogate standard and homogenization .....                               | 5           |
| 8.2                   | Ester cleavage and glycidol transformation .....                                       | 5           |
| 8.3                   | Matrix removal .....   | 6           |
| 8.4                   | Derivatization .....   | 6           |
| 8.5                   | Gas chromatography/mass spectrometry references .....                                  | 6           |
| 9                     | Expression of results .....  | 7           |
| 9.1                   | Determination of bound glycidol .....  | 7           |
| 9.2                   | Determination of bound 2-MCPD .....  | 8           |
| 9.3                   | Determination of bound 3-MCPD .....  | 9           |
| 9.4                   | Determination of the degree of diester cleavage .....                                  | 9           |
| 9.5                   | Quality control .....  | 9           |
| 10                    | Notes .....  | 10          |
| Annex A (informative) | Examples of relevant chromatograms and data evaluation using "low-MCPD" palm oil ..... | 12          |
| Annex B (informative) | Results of interlaboratory tests .....   | 19          |
| Bibliography .....    |  | 21          |
